A Thankyou Note from a Career Day Paticipant

Hi,

I know this is very late, but I never had the chance to thank you as a whole. I'm a Junior in Paramus High School and I went to the West Bergen Mental Healthcare in Ridgewood for Career Day, and it has changed my life. Before Career Day, careers seemed so distant and blurred--I didn't know what I could possibly do with my life. When I went to West Bergen, I saw what I could do. It made everything real. Following my host around, I realized, I wanted to do exactly that. I wanted to help people in this environment. I left with tears, their souls touched me, and I didn't know who to tell about this experience. It was so valuable, so incredible, I wanted to tell the world. The Paramus Rotary Club helped make this possible, and I thank you for that.
